

SIRI 74

LIQUID CLEANING AGENT

SIRI 74 is a solvent based cleaning agent. The special additive dissolves resins, oil and greases. It is used for cleaning the tools after using SIRI BUILD CARE resins Products.

Properties :

Base	Organic Solvent
Colour	Colour Less

Where to Use :

- ❖ Used as a cleaning agent to remove epoxies and resins
- ❖ Used to remove oil spillages on the floor.

How to Use :

The tools and equipments after using epoxy and any resin based products have to be thoroughly washed with SIRI 74 immediately.

To Clean oil soaked floor it has to be poured on the floor and allowed to react for 3 minutes and scrap out.

Precaution :

SIRI 74 should be kept away from fire as it is inflammable. Proper ventilation has to be made while using it. When falls on skin wash it with soap water. When splashes to eyes, should be washed with plenty of water and medical advice has to be taken.
